

# Guinea Pig Nutrition

## GREENS/LEAFY VEGETABLES

Provide additional nutrients and moisture in a guinea pig's diet as well as offering a variety of textures and tastes providing stimulation and enrichment.

## PELLET FOOD

There are different types of food you can buy for your guinea pig. Always follow the feeding guidelines on pack, for the correct amount to feed.

## GOOD QUALITY HAY/GRASS

This should make up the majority of their diet and always be available. Hay is the essential source of fiber for healthy digestion and teeth and performing natural behavior.

## TREATS

You can occasionally treat your guinea pig with a piece of fruit or root vegetable, which is good for bonding with your pet. However, they are high in sugar, so limit them to avoid obesity and dental problems.

Don't Forget  
Fresh Water!
